to do some cutting. We're not bailing out everybody. If they spend at the per pupil average then they would be able to get their...the statewide or the tier per pupil average, they would be able to fund their program, get enough state aid to fund their program at \$1.10 levy. If they were below, then they would probably be able to enjoy a lower property tax rate, at least that's my understanding of the impact on three different school districts.

SENATOR ROBINSON: The...how would valuation play a part in this, in local schools?

SENATOR WITHEM: I...valuation would play a part on what the tax rate is of the local school district. It would not impact upon or be impacted by this amendment as I.... If it would, it'd be indirect as opposed to direct.

SENATOR ROBINSON: Of course, the levy limit would impact that too as far as...

SENATOR WITHEM: Sure.

SENATOR ROBINSON: ...valuation...

SENATOR WITHEM: Sure.

SENATOR ROBINSON: ...goes.

SENATOR WITHEM: Sure.

SENATOR ROBINSON: Yeah. Okay. I stand in favor of this. Thank you.

SENATOR KRISTENSEN: Senator Withem, you are recognized to close on your amendment to the amendment.

SENATOR WITHEM: Yes, I would urge support for this amendment at this time with the recognition that I will need to be getting a...at least one clarification amendment added. We are looking now at the issue that Senator Wickersham brought forth of how the inflationary adjustment in my amendment works with or bumps up against the inflationary adjustment that is now in the bill,
